

śara

Erianthus munja Jesw. (this is the correct name acc. to WIRM 9,p. 98) = Saccharum munja Roxb. (Bt.; Bpn, guḍūcyādivarga 158-159; DGV 2-3, p.567; Kai.Nigh., oṣadhivarga 1242cd-1243; KB 4,p.2666-2668) = S. sara Roxb. (Dutt; Vśś) = S. ciliare Anders. (DEP 6,2,p.2).

śāka

Tectona grandis Linn.f.

śārivā, sārivā

(1) Hemidesmus indicus R.Br. (śvetasārivā: Dgv, nr.216; Gul; Bpn, guḍūcyādivarga 236-238; DWH 2,p.446-449; Nadk. 1,nr.1210; Bt.; KB 3, p.1596-1598; Raison; WIRM 5,p.33; R.L. Khosa et al. in JRIM 13,3,1978, p.115-119; V.S. Togunashi et al. in JRIM 13,4,1978,p.75-80);

(2) Ichnocarpus frutescens R.Br. (kṛṣṇasārivā: Bpn, ibid.; DWH, ibid.; Nadk. 1,nr.1283; Chopra; HK; Raison; KB 2,p.1591-1592; WIRM 5,p.162; R.L. Khosa et al.; V.S. Togunashi et al.; K. Vasudevan Nair et al. in ASL 3,4, April 1984, p.188-189) = Echites frutescens Roxb.;

(3) Cryptolepis buchananii Roem. et Schult. (kṛṣṇasārivā: Bpn, ibid.; Bt.; R.L. Khosa et al.; K. Vasudevan Nair et al.);

(4) Vallaris solanacea O. Kuntze (R.L. Khosa et al.);

(5) Decalepis hamiltonii Wight et Arn. (V.S. Togunashi et al.; K. Vasudevan Nair et al.)

śālī

I cannot find śālī in any text available to me. Acc. to the PW, it is Nigella indica Roxb. (Rā.nigh. in Śkdr.). This plant is usually called kṛṣṇajīraka. The Rā.nigh. (Ānandāśrama ed.) does not mention śālī as one of its synonyms, but kālī; śālī may be an error to be found in some Mss. or early editions of the Rā.nigh.

śimśapā

(1) Dalbergia sissoo Roxb. (KB 1,p.818-819; HK; Gul; Na 1,nr.136; Nadk. 1,nr.790; WIRM 3,p.7; Dutt; Chopra; Bt.; Kai.Nigh., oṣadhivarga 977cd-978; Bpn, vaṭādivarga 24);
